AUTOMATED RELIGION

A man walked up to a vending machine, put in a coin, pressed a button labeled "coffee", double cream, sugar." No cup appeared, but the nozzles went into action, sending forth coffee, cream and sugar. After the proper amount had gone down the drain, the machine turned off.

"Now that's real automation!" exclaimed the man.

"This thing even drinks it for you." That is just how some people want their religion. They want to make a deposit, put in some money, let the rest be taken care of automatically. But there is no such things as automated prayers, automated devotion, automated worship, or automated service in benevolence. The religion of Jesus requires personal engagement. Beware of automated religion!

Hidden Books Of The Bible

I once made a remark about hidden books in the Bible. It was a real lulu. Kept some people looking so hard for facts. And to others, it was a revelation. Some obviously were in a jam, especially since the books were not capitalized. But the real truth finally struck home to numbers of readers. To others, it was a real time consuming job. However, we want it to be a most fascinating few minutes for you. Yes, there will be some very easy ones to spot. Others just might require judges to determine. We will quickly admit it usually takes a minute or two to find one, and then there will be loud lamentations when you see how really simple it is. One little lady says that if she brews tea, she can concentrate better. Another chose a cup of coffee for assistance. See how well you can compete. Relax now. There are at least seventeen in the paragraph. Don't give up until you have found them all.

Sentence Sermons

He who finds no fault in himself ought to get a second opinion.

“A reproof entereth more into a wise man than an hundred stripes into a fool,” Proverbs 17:10

Just remember that the person who is slapping you on the back may be trying to get you to swallow everything he tells you.

The man who is interested in blowing his own horn is rarely interested in harmony.
