NO. 29

*Published weekly by the Dunlap Church of Christ*

**DARK SHADOWS FALL IN THE LIVES  
OF US ALL**

**Sickness and sorrow come to us all,  
But through it we grow and learn to "stand tall"  
For trouble is "part and parcel of life"  
And no man can grow without struggle and strife.  
And the more we endure with patience and grace  
The stronger we grow and the more we can face-  
And the more we face, the greater our love.  
And with love in our hearts we are more conscious of  
the pain and the sorrow in lives everywhere.  
So it is through trouble that we learn how to share.  
Helen Steiner Rice**

**Donna Underwood** Room 713  
**Campbell Underwood**  
Paulette Hamilton's mom fell and  
broke her hip—Re-hab  
**Edna Johnson**

## **HAVE A WONDERFUL DAY!**

**When things in your life seem almost too much to handle, when 24 hours a day are not enough, remember the mayonnaise jar... and the coffee...**

A professor stood before his philosophy class with several items in front of him. When the students arrived for class to begin, without saying a word, he picked up a very large and empty mayonnaise jar and proceeded to fill it with golf balls. He then asked the students if the jar was full. They agreed it was. The professor then picked up a box of pebbles and poured them into the jar. He shook the jar lightly. The pebbles rolled into the open areas between the golf balls. He then asked the students again if the jar was full. They agreed it was. The professor next picked up a box of sand and poured this into the jar. Of course, the sand filled up everything else. He asked once more if the jar was full. The students responded with a unanimous "yes". The professor then produced two cups of coffee from under the table and poured the entire contents into the jar, effectively filling the empty space between the sand. The students laughed.

"Now", said the professor, as the laughter subsided, "I want you to recognize that this jar represents your life. The golf balls are the important things - your family, your children, your health, your friends and your favorite passions - things that if everything else was lost and only they remained, your life would still be full. The pebbles are the other things that matter, like your job, your house, and your car. The sand is everything else - the small things. If you put the sand into the jar first," he continued, "there is no room for the pebbles or the golf balls. The same goes for life. If you spend all your time and energy on the small things, you will never have room for the things that are important to you. Pay attention to the things that are critical to your happiness. Play with your children. Take time to go to the doctor. Take your wife out to dinner. Play another 18. There will always be time to clean the house and mow the lawn. Take care of the golf balls first, the things that really matter. Set your priorities. The rest is just sand."

One of the students raised her hand and inquired what the coffee represented. The professor smiled. "I'm glad you asked. It just goes to show you that no matter how full your life may seem, there's always room for a couple of cups of coffee with a friend."

Please share this with somebody you care about. I just did.
